SOFTBALL

SOFTBALL

The Legend Softball Program plays an enormous role in the development of the young women we are fortunate enough to coach. Our vision is to inspire these young women to recognize and reach their full potential as student-athletes and members of the Legend community. We will strive daily to prepare all involved in our program for life after high school. We will focus our energy on the things we can control. This responsibility lies in the classroom, on the softball field, and in all social arenas.

Legend High School Softball Players are expected to exemplify outstanding conduct, sportsmanship, and citizenship. While it is understood that winning is the reward of excellence, it is also emphasized that winning must be done with integrity and good sportsmanship.
